SKILLS

- **Programming**: Python
- **AI/ML**: PyTorch, NLP, RAG, LLMs, Agentic AI
- **Computer Vision:** YOLO(Object Bounding Box)
- **Agentic AI / LLM Frameworks:** LangChain, LangGraph
- **Web & Backend:** HTML, CSS, FARM Stack (FastAPI, React, MongoDB)
- **Tools:** Git, GitHub

EDUCATION

- **AIML** | Dr. Ambedkar Institute of Technology Bengaluru -560056
- CGPA**: 8.47** | (06-2026)
- **XII (KSEEB)** | Shree Sharanabasaveshwara P.U college Bidar-585403
- Grade: **93.5**% | 2023

PROJECTS

- **NAMMU – Personalized AI Assistant**

  - **Tech**: React Native, FastAPI, Gemini, Google APIs, SQLite, Ollama
  - Building an **agentic AI assistant** integrating Gmail, Calendar, Weather , Call, and YouTube for intelligent task automation.
  - Designing **AI tool-calling pipelines** for document summarization, scheduling, and contextual assistance.
  - Implementing **memory-aware reasoning** to deliver personalized and context-driven responses.

- **AI Organizational Decision Intelligence Platform**

  - **Tech**: FastAPI, React, MongoDB, LangChain, LangGraph, Gemini, HuggingFace
  - Built an agentic AI platform to **analyze organizational workflows** and **detect decision delays, execution gaps,** and **operational risks**.
  - Designed **multi-agent reasoning pipelines** using LangChain and LangGraph.
  - Integrated Gemini with HuggingFace fallback models for reliable AI inference.

- **Compressive Concrete Strength Prediction**

  - **Tech**: Python, LightGBM, FastAPI, Machine Learning
  - Built a LightGBM regression model achieving **97% accuracy** for predicting concrete compressive strength.
  - Deployed the model via FastAPI REST API for mix design optimization.

EXPERIENCE & LEADERSHIP

- **Software Engineer Intern | Young Mind Creations Private Limited | Mar 2026 – May 2026**

  - Worked on **computer vision solutions using YOLO** for real-time tasks.
  - Implemented APIs and collaborated with engineers to **design and deploy scalable application features**.

- **AI/ML Co-Lead | GDGoC Dr. AIT | 2025 – 2026**

  - Led AI/ML initiatives, organized technical workshops and hackathons, and mentored peers in AI/ML projects to foster an innovative developer community.

ACHIEVEMENTS & INTERESTS

- Cleared **National Means-Cum-Merit Scholarship** exam at age **13**
- Pre-University College Topper with **93.5%**
- Contributed to **IEEE Summer Code Camp**
- Playing **chess** and **Shuttle badminton**
- Enjoy solving data structure and algorithm problems
